

NATIONAL OCCUPATIONAL STANDARD FOR A DAIRY FARM SUPERVISOR

**NOS.DFS.01
First Edition**

APPROVING AUTHORITY

This National Occupational Standard has been prepared and published under the authority of the Zambia Qualifications Authority Board on 19th May, 2022.

ZAMBIA QUALIFICATIONS AUTHORITY

The Zambia Qualifications Authority Act No. 13 of 2011 was enacted by the Government of the Republic of Zambia to ***“provide for the development and implementation of a national qualifications framework; establish the Zambia Qualifications Authority; provide measures to ensure that standards and registered qualifications are internationally comparable; and provide for matters connected with, or incidental to the foregoing”***. Among other functions, ZAQA is responsible for ***determining national standards for any occupation***, through various sector specific National Occupational Standards Development Teams (NOSDTs).

REVISION OF NATIONAL OCCUPATIONAL STANDARDS

National Occupational Standards shall be revised after every five (5) years, or whenever necessary, by the issue of either amendments or of revised editions. It is important that users of National Occupational Standards (NOS) ascertain that they are in possession of the latest amendments or editions.

NOS DEVELOPMENT TEAM RESPONSIBLE

This National Occupational Standard was prepared by the Agriculture National Occupational Standards Development Team, upon which the following organisations were represented:

1. Agricultural Institution of Zambia (AIZ)
2. Aquaculture Development Association of Zambia
3. CropLife Zambia
4. Ministry of Fisheries and Livestock (Department of Fisheries)
5. Golden Valley Agricultural Research Trust (GART)
6. Katete College of Agricultural Marketing
7. Ministry of Agriculture (Department of Agriculture)
8. Mulungushi University (MU)
9. Natural Resources Development College (NRDC)
10. University of Zambia (UNZA)
11. Veterinary Council of Zambia
12. Zambia Agriculture Research Institute (ZARI)
13. Zambia National Farmers Union (ZNFU)
14. Zambia Seed Trade Association (ZASTA)
15. Zambia Qualifications Authority (ZAQA)

ACKNOWLEDGEMENT

The Zambia Qualifications Authority would like to acknowledge the invaluable support of the following stakeholders that participated in the development of this National Occupational Standard:

1. Dr. Amy Kingdom (Zambia National Farmers Union - ZNFU)
2. Dr. Batiseba Tembo (Zambia Agriculture Research Institute - ZARI)
3. Dr. Elias Kantashula (University of Zambia - UNZA)
4. Dr. Joself M. Chileshe (University of Zambia - UNZA)
5. Maj. Nelson kaluba (Rtd) (Aquaculture Development Association of Zambia)
6. Mr. Alex Dennis Chilala (Zambia Agriculture Research Institute – ZARI)
7. Mr. Davis Mwanza (Natural Resources Development College - NRDC)
8. Mr. Enerst Muzukutwa (CropLife Zambia/ZASTA)
9. Mr. Johnstone Mfula (Ministry of Fisheries and Livestock (Department of Fisheries)
10. Mr. Malumo Nawa (Ministry of Agriculture (Department of Agriculture)
11. Mr. Masautso E. Sakala (Natural Resources Development College - NRDC)
12. Mr. Mathews Ngosa (Agricultural Institution of Zambia (AIZ))
13. Mr. Shadreck C. Mubanga (Golden Valley Agricultural Research Trust - GART)
14. Mr. Stanford Phiri (Katete College of Agricultural Marketing)
15. Mr. Joseph T. Mwale (Mulungushi University)
16. Mrs. Precious Hamusute (Veterinary Council of Zambia)
17. Ms. Eva N. Kaonga (University of Zambia - UNZA)
18. Ms. Sylvia H. N'gandu (University of Zambia - UNZA)
19. Mr. Fidelis Cheelo (Zambia Qualifications Authority)
20. Miss Womba Soneka (Zambia Qualifications Authority)
21. Mr. Modest Hamalabbi (Zambia Qualifications Authority)

FOREWORD

The Zambia Qualifications Authority (ZAQA) is a statutory body under the Ministry of Education established by ZAQA Act No. 13 of 2011 to “**provide for the development and implementation of a national qualifications framework; provide measures to ensure that standards and registered qualifications are internationally comparable; and provide for matters connected with, or incidental to the foregoing**”.

Among other functions, ZAQA is responsible for “**determining national standards for any occupation**”, through various sector specific National Occupational Standards Development Teams (NOSDTs) of experts composed of representation from appropriate authorities, government departments, industry, academia, regulators, consumer associations and non-governmental organisations, etc.

This National Occupational Standard (NOS) has been developed by the Agriculture National Occupational Standards Development Team in accordance with the procedures and guidelines of ZAQA. All users should ensure that they have the latest edition of this publication as National Occupational Standards are revised from time to time.

This NOS shall be used by, among others, industry, employers, quality assurance bodies, awarding and professional bodies and education and training institutions, as a benchmark to identify training needs, develop job profiles/descriptions, develop curricula and learning programmes, in various sectors where the occupation exists. In the Agriculture sector, demonstration of competence against this NOS may be required in order to run a business or practice a craft or profession.

JUSTIFICATION

Dairy Farm Supervisors are required in the agricultural sector, in order to safely and hygienically manage the production of milk from dairy animals, whether cattle or goats. This is a specialised undertaking that requires knowledge of animal handling, as well as training in how to hygienically carry out the milking process, and handle the milk until delivery, or processing. Dairy Farm Supervisors oversee the day-to-day operations of a dairy farm and supervise a group of dairy workers.

ACRONYMS AND ABBREVIATIONS

AIZ	Agricultural Institute of Zambia
CS	Core Skill
DFS	Dairy Farm Supervisor

GLOSSARY OF TERMS

For the purposes of this NOS, the following terms and definitions shall apply:

Core Skills/Generic Skills: are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the NOS, these include communication related skills that are applicable to most job roles.

Function: is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of NOS.

Job Title: defines a unique set of functions that together form a unique employment opportunity in an organisation.

Knowledge and Understanding: are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

National Occupational Standards (NOS): are statements of the standards of performance individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding. They are precise descriptions of what an individual is expected to be able to do in his/her work role.

National Occupational Standards (NOS) Code: is a unique reference code that identifies a NOS.

National Occupational Standards Development Team (NOSDT): means an established group of national stakeholders/experts responsible for the development of National Occupational Standards within a specific economic sector or occupation.

Occupation: is a set of job roles, which perform similar/related set of functions in an industry.

Organisational Context: includes the way the organisation is structured and how it operates, including the extent of operative knowledge that managers have in their relevant areas of responsibility.

Performance Criteria: are statements that together specify the standard of performance required when carrying out a task.

Scope: is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.

Sector: is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.

Sub Sector: is derived from a further breakdown based on the characteristics and interests of its components.

Technical Knowledge: is the specific knowledge needed to accomplish specific designated responsibilities.

Unit Title: gives a clear overall statement about what the incumbent should be able to do.

1. OVERVIEW

This is an overview highlighting the key factors that are important for the Dairy Farm Supervisor, including job description, job purpose, educational level and professional registrations required.

NOS Code	NOS.DFS.01
Occupation	Dairy Farm Supervisor
Job Title	Dairy Farm Supervisor
Job Description	The Dairy Farm Supervisor is the main person responsible for overseeing the day-to-day hygienic milking of animals in a Dairy. Their tasks include caring for the animals, carrying out the milking process, and handling the milk until collection or cooling.
Job Purpose	The purpose of this job is to oversee all tasks required to care for the milking of animals, and their followers; carry out the milking process, with due regard to hygiene; and handle the milk until delivery/processing in such a way that ensures food safety.
ZQF Level	4
Sector	Agriculture
Sub sector	Livestock (dairy)
Other Economic Sector(s) in which the Occupation is Practiced	Livestock (Beef ranch cattle handling).
Other Similar Jobs that can be performed by a Dairy Worker.	Beef Herd Handling
Minimum Educational Job Entry Qualification(s)	Certificate
Practicing License Requirements (if any)	AIZ or VCZ
Training/RPL	Basic knowledge of how to handle Livestock and Animal Husbandry
Minimum Job Entry Age	18 years
Prior Experience	None
Performance Criteria	As described in the Units under Section 4

2. SCOPE

This National Occupational Standard specifies the fundamental knowledge and understanding, skills and competencies that a Dairy Worker must possess to be successful in his/her job role. It is applicable to Dairy Farm Supervisors working in public or private organisations, or are self-employed.

3. PERSONAL ATTRIBUTES (VALUES, ETHICS AND ATTITUDES)

This job requires an individual to possess:

- Problem-solving skills
- Integrity and Honesty
- Interpersonal skills
- Attention to detail
- Ability to communicate effectively and clearly
- Self-motivated and team worker
- Ability to lead and to be lead
- Ability to plan and prioritize,
- Quality consciousness
- Occupational health and safety oriented
- Understanding of animal welfare

4. UNITS AND ELEMENTS

This National Occupational Standard is divided into six (06) Units representing the tasks that a job holder should undertake in his/her day-to-day work. Each unit is further broken down into elements depicting the number of activities to be carried out for the successful execution of a particular task.

UNIT 1 [This unit is about health and safety; hygiene and environment].

Unit No.	01
Unit Title	Health and Safety, hygiene and environmental management
Description	This unit is about maintaining health and safety, hygiene and environmental protection for the individual and the animal.
Scope	This unit covers the following: • Health & safety policies for the workplace. • General hygiene policies with respect to dairy management. • Environmental protection, and waste management.
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Health & safety regulations	To be competent, the individual must be able to: PC1. Implement organisational safety and health policies and regulations. PC 2. Understand and prevent risks and possible safety hazards of all aspects of operations
General hygiene policies with respect to dairy management	To be competent, the individual must be able to; PC3. Follow the organisation's hygiene policies PC4. Follow the organisations cleaning schedules.
Environmental protection.	To be competent, the individual must be able to: PC5. Implement the environmental policies for the organisation, especially with regard to waste management. PC6. Implement environmental standard operating procedures and policies of the organisation
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1 Organisation quality, health, and safety policies OK2. Organisation environmental policies OK3 Organisation regulations and global best practices
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. Safety and health risk assessment TK2. Environmental risk assessment TK3. Hygiene policies and procedures TK4. Health and safety policies and procedures
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of: RK1. Regulatory requirements for operations of a health & safety committee.
Skills (S) – These skills apply to all of the units listed below	

A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions.
	Reading Skills
	The individual on the job must be able to: CS2. Keep basic dairy records, such as milk production records, and identities of cows in heat.
B. Professional Skills	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS3. Express statements or information clearly so that others can hear and understand. CS4. Participate in and understand the main points of simple discussions. CS5. Respond appropriately to any queries.
	Decision Making
	The individual on the job must be able to: PS1. Follow organisations procedures and policies.
	Plan and Organise
	The individual on the job must be able to: PS2. Plan and organise work to start and finish tasks on time. PS3. Work constructively and collaboratively with others.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS4. Recognize problems and search for solutions. PS5. Approach relevant authority when required. PS6. Judiciously use common sense in day-to-day activities
	Analytical Thinking
	The individual on the job must be able to: PS7. Apply knowledge, observations and data to select course of action to perform tasks
	Critical Thinking
	The individual on the job must be able to: PS8. Critically evaluate information obtained from trainers, supervisor and co-workers to perform day to day activities. PS9. Ask relevant questions for better understanding.

UNIT 2 [This unit is about preparing the cows for milking].

Unit No.	02
Unit Title	Preparing the cows for milking
Description	This unit is about caring for the cows prior to milking, and handling them correctly.
Scope	This unit covers supervision of the following: • Moving of cows to the waiting pens • Management and handling in the waiting pens • Visual pre-milking assessments and planning of milking order
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Moving of cows to the waiting pens	To be competent, the individual on the job must be able to: PC1. Handle cows calmly and quietly, herding them into the waiting area. PC2. Ensure that the waiting area is clean, dirt-free, and fly-free.
Management and handling in the waiting pens	To be competent, the individual must be able to: PC3. Ensure that the animals are managed calmly and quietly in the waiting area. PC4. Ensure the area is safe, and fly/dirt free. PC5. Ensure that workers feed all of the different classes of animals with the right type and right quantity of feed, according to schedules (this activity may or may not take place prior to milking depending on the organisation's feeding policy).
Visual pre-milking assessments, and planning of milking order.	To be competent, the individual must be able to: PC6. Ensure that animals are visually assessed, in order to detect any new problems, and adjust the milking order accordingly. PC7. Understand the importance of the milking order.
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Organisation quality, health and safety policies OK2. Organisation environmental policies OK3. Organisation regulations and global best practices
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. Cattle handling, with due regard to the welfare TK2. Operation of the facilities and gates TK3. Assessment of each cow in the waiting pen TK4. Decisions on the order of milking

C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of: RK1. Regulatory requirements for health & safety committees. RK2. Regulatory requirements for animal welfare.
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions. CS2. Keep current, accurate, and complete records.
	Reading Skills
	The individual on the job must be able to: CS3. Read and interpret internal/external documents. CS4. Read and understand manuals, health, and safety instructions, memos, and other company documents. CS5. Read from different sources- books, screens in machines and signage. CS6. Understand the various colour codes, nomenclature and acronyms related to the profession. CS7. Observe and analyse the results of research experience.
	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS8. Express statements or information clearly so that others can hear and understand. CS9. Participate in and understand the main points of discussions. CS10. Respond appropriately to any queries.
B. Professional Skills	Decision Making
	The individual on the job must be able to: PS1. Follow organisations rule-based decision-making process. PS2. Take decision with systematic course of actions and/or response.
	Plan and Organise
	The individual on the job must be able to: PS3. Plan and organise work to meet deadlines. PS4. Work constructively and collaboratively with others. PS5. Prepare and present lectures and training sessions.
	Customer Centricity
	The individual on the job must be able to: PS6. Follow a code of conduct. PS7. Manage relationships with customers with the intent on satisfying the organisation's requirements for service delivery. PS8. Work with many professionals, paraprofessionals,

	caretakers, and students.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS9. Recognise problems and search for solutions. PS10. Choose the best methods to complete assigned tasks. PS11. Approach relevant authority when required. PS12. Judiciously use common sense in day-to-day activities
	Analytical Thinking
	The individual on the job must be able to: PS13. Apply domain knowledge, observations, and data to select the course of action to perform tasks PS14. Observe and analyse the results of research experience.
	Critical Thinking
	The individual on the job must be able to: PS15. Critically evaluate information obtained from customers, supervisors, co-workers, and students to perform day-to-day activities. PS16. Ask relevant questions for better understanding.

UNIT 3 [This unit is about the milking process].

Unit No.	03
Unit Title	The milking process
Description	This unit is about the milking process in a manual dairy
Scope	This unit covers the following: • Restraint of the cow • Hygiene, Milk let-down and testing for mastitis
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Restraint of the cow	To be competent, the individual must be able to: PC1. Ensure that the dairy workers know how to safely move the cow into the parlour and into restraints. PC 2. Understand the use of extra restraints where needed
Hygiene, Milk let-down and testing for mastitis	To be competent, the individual must be able to: PC3. Ensure that the udder is cleaned using the appropriate method for the conditions. PC4. Ensure that teats are stripped into a test-cup to assess for anomalies, and stimulate milk let-down. PC5. Ensure that, in the case of any anomalies, a full mastitis test is carried out.

	PC6. Ensure that infected cows and infected milk are managed according to the organisation's policy. PC7. Ensure that all workers know how to do the milking process, either manually or using an automated milking machine.
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Organisation quality, health and safety policies OK2. Organisation environmental policies OK3. Organisation regulations and global best practices
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. The usage of livestock restraints TK2. Cleaning of the udder, under different conditions. TK3. Maintaining personal hygiene through the process TK4. Usage of the strip cup and milking salve. TK5. Usage of the mastest solution and paddle. TK6. Handling of infected animals, and infected milk. TK7. Carrying out the milking process, whether manually or using a milking machine. TK8. How to hygienically apply teat dip, and release the animal into a clean waiting pen.
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of: RK1. Regulatory requirements for health & safety RK2. Regulations for food safety and public health.
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions. CS2. Keep current, accurate, and complete records.
	Reading Skills
	The individual on the job must be able to: CS3. Read and interpret internal/external documents. CS4. Read and understand manuals, health, and safety instructions, memos, and other company documents. CS5. Read from different sources- books, screens in machines and signage. CS6. Understand the various colour codes, nomenclature and acronyms related to the profession.

B. Professional Skills	CS7. Observe and analyse the results of research experience.
	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS8. Express statements or information clearly so that others can hear and understand. CS9. Participate in and understand the main points of discussions. CS10. Respond appropriately to any queries.
	Decision Making
	The individual on the job must be able to: PS1. Follow organisation rule-based decision-making process. PS2. Take decisions with a systematic course of actions and/or response.
	Plan and Organise
	The individual on the job must be able to: PS3. Plan and organise work to meet deadlines. PS4. Work constructively and collaboratively with others. PS5. Prepare and present lectures and training sessions.
	Customer Centricity
	The individual on the job must be able to: PS6. Follow a code of conduct. PS7. Manage relationships with customers with the intent on satisfying the organisation's requirements for service delivery. PS8. Work with many professionals, paraprofessionals, caretakers, and students.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS9. Recognize problems and search for solutions. PS10. Choose the best methods to complete assigned tasks. PS11. Approach relevant authority when required. PS12. Judiciously use common sense in day-to-day activities
	Analytical Thinking
	The individual on the job must be able to: PS13. Apply domain knowledge, observations, and data to select the course of action to perform tasks PS14. Observe and analyse the results of research experience.
	Critical Thinking
	The individual on the job must be able to: PS15. Critically evaluate information obtained from customers, supervisors, co-workers, and students to perform day-to-day activities. PS16. Ask relevant questions for better understanding.

UNIT 4 [This unit is about handling the milk until delivery or processing].

Unit No.	04
Unit Title	Handling the milk until delivery for processing
Description	This unit is about maintaining the safety and wholesomeness of the milk until delivery for processing.
Scope	This unit covers supervision of the following: • Milk Collection • Milk Storage • Delivery and transport of the milk • Disposal of contaminated milk and disinfection of all milking equipment
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Milk collection	To be competent, the individual must be able to: PC1. Ensure that the milk is collected from the cow in clean, disinfected stainless steel buckets PC2. Ensure the milk is transferred through a clean sieve into the correct stainless steel collection churn, depending on the status of the cow (clean, colostrum, or infected)
Milk storage	To be competent, the individual must be able to: PC3. Ensure the milk is stored in a covered container, away from flies and other pests. PC4. Ensure the milk is chilled, as soon as possible, to maintain quality
Delivery and transport of milk	To be competent, the individual must be able to: PC5. Ensure that milk is hygienically transported from one place to another, in the shortest possible timeframe.
Disposal of contaminated milk, and disinfection of all equipment	To be competent, the individual must be able to: PC6. Dispose of or utilise different types of contaminated milk PC7. Follow cleaning schedules to clean different types of equipment, using different colour coded brushes.
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Organisation. Quality, health and safety policies OK2. Organisation environmental policies OK3. Organisation regulations and global best practices

B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: - TK1. Collection of the different types of milk - TK2. Storage of the milk - TK3. Transportation of the milk - TK4. Disposal of or usage of the contaminated milk - TK5. Cleaning of the equipment - TK6. Maintenance of the safety and wholesomeness of milk until delivery for processing. - TK7. The importance of using stainless steel in milk collection, transport, and storage.
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of: - RK1. Regulatory requirements for health & safety - RK2. Regulatory requirements for food safety and public health.
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: - CS1. Write in English and give simple concise instructions. - CS2. Keep current, accurate, and complete records.
	Reading Skills
	The individual on the job must be able to: - CS3. Read and interpret internal/external documents. - CS4. Read and understand manuals, health and safety instructions, memos, other company documents. - CS5. Read from different sources- books, screens in machines and signage. - CS6. Understand the various colour codes, nomenclature and acronyms related to the profession. - CS7. Observe and analyse the results of research experience.
B. Professional Skills	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : - CS8. Express statements or information clearly so that others can hear and understand. - CS9. Participate in and understand the main points of discussions. - CS10. Respond appropriately to any queries.
B. Professional Skills	Decision Making
	The individual on the job must be able to: - PS1. Follow organisations rule-based decision-making process. - PS2. Take decision with systematic course of actions and/or response.

	Plan and Organise
	The individual on the job must be able to: PS3. Plan and organise work to meet deadlines. PS4. Work constructively and collaboratively with others. PS5. Prepare and present lectures and training sessions.
	Customer Centricity
	The individual on the job must be able to: PS6. Follow a code of conduct. PS7. Manage relationships with customers with the intent of satisfying the organisation's requirements for service delivery. PS8. Work with many professionals, paraprofessionals, caretakers, and students.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS9. Recognize problems and search for solutions. PS10. Choose best methods to complete assigned tasks. PS11. Approach relevant authority when required. PS12. Judiciously use common sense in day-to-day activities
	Analytical Thinking
	The individual on the job must be able to: PS13. Apply domain knowledge, observations, and data to select the course of action to perform tasks PS14. Observe and analyse the results of research experience.
	Critical Thinking
	The individual on the job must be able to: PS15. Critically evaluate information obtained from customers, supervisors, co-workers, and students to perform day-to-day activities. PS16. Ask relevant questions for better understanding.

UNIT 5 [This unit is about ancillary tasks on a dairy farm].

Unit No.	05
Unit Title	Ancillary tasks on a dairy farm
Description	This unit is about other tasks that a dairy farm supervisor may be asked to oversee on a dairy farm.
Scope	This unit covers the following: • Cleaning of Facilities and equipment and control of flies/pests • Feeding of cows and followers • Monitoring for illness, and treating as advised • Heat Detection • Repairs to facilities, pens, and fence-lines
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Cleaning of Facilities and equipment and control of flies/pests	To be competent, the individual must be able to: PC1. Ensure handling facilities, waiting pens and parlour are cleaned regularly according to a standard operating procedure. PC2. Ensure that all milking equipment is cleaned according to a set cleaning schedule. PC3. Ensure that an automated milking machine is cleaned according to the manufacturer's recommendations. PC4. Ensure that flies, pests, and dirt are controlled
Feeding of cows and followers	To be competent, the individual must be able to: PC5. Ensure that workers feed all of the different classes of animals with the right type and right quantity of feed, according to schedules.
Monitoring for illness, and treating as advised	To be competent, the individual must be able to: PC6. Ensure that all livestock are monitored daily for signs of injury or illness and that any issues are reported to the manager or owner for treatment and follow-up. PC7. Ensuring that animals receive the recommended course of treatment as advised or prescribed by the relevant qualified personnel.
Heat Detection	To be competent, the individual must be able to; PC8. Ensure that heat detection assessments are carried out at stipulated times and that the animals on heat are recorded. PC9. Ensure that animals are presented for breeding as required by the organisation's policies.
Repairs to facilities, pens, and fence-lines	PC10. Ensure that repairs to facilities, pens, and fence lines are carried out, as required. PC11. Do any such tasks as required by the manager and/or owner of the dairy, in order to assist with the efficient operations of the farm.

Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the company/ organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Organisation Quality, health and safety policies OK2. Organisation environmental policies OK3. Organisation regulations and global best practices
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. Cleaning of facilities, machines, and equipment according to standard operating procedures TK2. Carrying out of pest control according to Standard Operating Procedures TK3. Feeding all classes of animals with the right type and quantity of feed, at the right times, according to standard operating procedures. TK4. Carrying out basic repairs to infrastructure, together with the supervisor TK5. Carrying out heat detection, according to the standard operating procedure TK6. Assisting qualified staff with administration of any preventive remedies and treatments.
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of : RK1. Regulatory requirements for health & safety RK2. Regulations for food safety and public health.
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions. CS2. Keep current, accurate, and complete records.
	Reading Skills
	The individual on the job must be able to: CS3. Read and interpret internal/external documents. CS4. Read and understand manuals, health and safety instructions, memos, other company documents. CS5. Read from different sources- books, screens in machines and signage. CS6. Understand the various colour codes, nomenclature and acronyms related to the profession. CS7. Observe and analyse the results of research experience.
	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS8. Express statements or information clearly so that others

	can hear and understand. CS9. Participate in and understand the main points of discussions. CS10. Respond appropriately to any queries.
B. Professional Skills	Decision Making
	The individual on the job must be able to: PS1. Follow organisation rule-based decision-making process. PS2. Take decisions with a systematic course of actions and/or response.
	Plan and Organise
	The individual on the job must be able to: PS3. Plan and organise work to meet deadlines. PS4. Work constructively and collaboratively with others. PS5. Prepare and present lectures and training sessions.
	Customer Centricity
	The individual on the job must be able to: PS6. Follow a code of conduct. PS7. Manage relationships with customers with the intent on satisfying the organisation's requirements for service delivery. PS8. Work with many professionals, paraprofessionals, caretakers, and students.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS9. Recognize problems and search for solutions. PS10. Choose the best methods to complete assigned tasks. PS11. Approach relevant authority when required. PS12. Judiciously use common sense in day-to-day activities
	Analytical Thinking
	The individual on the job must be able to: PS13. Apply domain knowledge, observations, and data to select a course of action to perform tasks PS14. Observe and analyse the results of research experience.
	Critical Thinking
	The individual on the job must be able to: PS15. Critically evaluate information obtained from customers, supervisors, co-workers, and students to perform day-to-day activities. PS16. Ask relevant questions for better understanding.

UNIT 6 [This unit is about supervision of staff.].

Dilemmas associated with the job of a Dairy Farm Supervisor include early and late working hours, exposure to chemical (disinfectants), physical (live cow dangers, slippery floors) and biological (zoonoses, flies, exposure to bacteria and manure) hazards, time pressure to complete tasks.

Solutions to dilemmas include carrying out risk assessment and implementing appropriate control measures, ensuring good time management and planning, participating in workplace safety sensitization and awareness, having good facilities and keeping them in good condition, supporting capacity building through training, managing work stress, adhering to company's safety and standard operating procedures at all times, paying attention to detail, consulting extensively within and outside one's department/team on safety and other issues.

6. PARTIES INVOLVED/INTERACTING WITH THE JOB HOLDER OR TRAINEE

6.1 Internal/Within the Organisation

Parties involved/interacting with the job holder who are internal to the organisation include supervisors, subordinates, AI technicians and other employees.

6.2 External/Outside the Organisation

Parties involved/interacting with the job holder who are external include customers/clients, government regulators, trainers, suppliers of equipment/tools/consumables, occupational health and safety committees and trade unions.

7. PHYSICAL DEMANDS ON THE BODY

- Physique to sustain strenuous conditions;
- Be able to walk and stand for long periods of time;
- Bend, stretch, twist, or reach out;
- Be able to lift relatively heavy materials, tools and equipment;
- Be able to use fingers, hands and feet with ease to complete the assigned task (dexterity)

8. PARTIES INVOLVED/INTERACTING WITH THE JOB HOLDER OR TRAINEE

8.1 Internal/Within the Organization

Parties involved/interacting with the job holder who are internal to the organization include supervisors, subordinates, and other employees.

8.2 External/Outside the Organization

Parties involved/interacting with the job holder who are external include customers/clients, government regulators, trainers, suppliers of equipment/tools/consumables, occupational health and safety associations, and Academia.

9. PHYSICAL DEMANDS ON THE BODY

- Physique to sustain strenuous conditions;
- Be able to walk and stand for long periods of time;
- Bend, stretch, twist, or reach out;
- Be able to lift relatively heavy materials, tools and equipment;
- Be able to use fingers, hands and feet with ease to complete the assigned task (dexterity).

ANNEX A

Criteria for Assessments based on this NOS

A.1 Guidelines for Assessment

A.1.1 Criteria for assessment for curricula and learning programmes based on this NOS will be created by curricula and programmes developers. Each Performance Criteria (PC) will be assigned marks proportional to its importance in the NOS. Curricula and programmes developers will also lay down proportion of marks for theory and practical skills for each performance criteria, giving more weight to practical skills.

There shall be allocated the 'Total Mark', which will be the sum of all marks in each Unit, distributed across the number of PCs in that particular Unit. The 'out of' mark will be the mark allocated to each PC, which will be shared between theory and skills practical assessments.

A.1.2 Awarding/assessment bodies or institutions and other users of the NOS will create unique question papers for the theory part and evaluations for skill practical part for their respective candidates.

A1.3. Supervisors must be very proficient in the practical aspects of the job, and must attain a pass mark of 70%. For the theoretical sections, a pass mark of atleast 50% is recommended.

ANNEX B

NOS Version Control

This Annex gives details necessary for the tracking of the NOS versions based on the number of revisions.

NOS Code	NOS.DFS.01		
ZQF Level	04	Version Number	01
Sector	Agriculture	Date of Approval	19 th May 2022
Sub Sector	Livestock	Date of Last Review	N/A
Occupation	Dairy Farm Supervisor	Date of Next Review	May 2027
