

NATIONAL OCCUPATIONAL STANDARDS FOR POND WORKER

**NOS.PW.01
FIRST EDITION**

APPROVING AUTHORITY

This National Occupational Standard has been prepared and published under the authority of the Zambia Qualifications Authority Board on 19th May 2022.

ZAMBIA QUALIFICATIONS AUTHORITY

The Zambia Qualifications Authority Act No. 13 of 2011 was enacted by the Government of the Republic of Zambia to ***“provide for the development and implementation of a national qualifications framework; establish the Zambia Qualifications Authority; provide measures to ensure that standards and registered qualifications are internationally comparable; and provide for matters connected with, or incidental to the foregoing”***. Among other functions, ZAQA is responsible for ***determining national standards for any occupation***, through various sector specific National Occupational Standards Development Teams (NOSDTs).

REVISION OF NATIONAL OCCUPATIONAL STANDARDS

National Occupational Standards shall be revised after every **5 years**, or whenever necessary, by the issue of either amendments or of revised editions. It is important that users of National Occupational Standards (NOS) should ascertain that they are in possession of the latest amendments or editions.

NOS DEVELOPMENT TEAM RESPONSIBLE

This National Occupational Standard was prepared by the Agriculture National Occupational Standards Development Team, upon which the following organisations were represented:

1. Agricultural Institution of Zambia (AIZ)
2. Aquaculture Development Association of Zambia
3. Crop Life Zambia
4. Ministry of Fisheries and Livestock (Department of Fisheries)
5. Golden Valley Agricultural Research Trust (GART)
6. Katete College of Agricultural Marketing
7. Ministry of Agriculture (Department of Agriculture)
8. Mulungushi University (MU)
9. Natural Resources Development College (NRDC)
10. University of Zambia (UNZA)
11. Veterinary Council of Zambia
12. Zambia Agriculture Research Institute (ZARI)
13. Zambia National Farmers Union (ZNFU)
14. Zambia Seed Trade Association (ZASTA)
15. Zambia Qualifications Authority (ZAQA)

ACKNOWLEDGEMENT

The Zambia Qualifications Authority would like to acknowledge the invaluable support of the following stakeholders that participated in the development of this National Occupational Standard:

1. Dr. Amy Kingdom (Zambia National Farmers Union - ZNFU)
2. Dr. Batiseba Tembo (Zambia Agriculture Research Institute - ZARI)
3. Dr. Elias Kantashula (University of Zambia - UNZA)
4. Dr. Joself M. Chileshe (University of Zambia - UNZA)
5. Maj. Nelson kaluba (Rtd) (Aquaculture Development Association of Zambia)
6. Mr. Alex Dennis Chilala (Zambia Agriculture Research Institute – ZARI)
7. Mr. Davis Mwanza (Natural Resources Development College - NRDC)
8. Mr. Enerst Muzukutwa (CropLife Zambia/ZASTA)
9. Mr. Johnstone Mfula (Ministry of Fisheries and Livestock (Department of Fisheries)
10. Mr. Malumo Nawa (Ministry of Agriculture (Department of Agriculture)
11. Mr. Masautso E. Sakala (Natural Resources Development College - NRDC)
12. Mr. Mathews Ngosa (Agricultural Institution of Zambia (AIZ))
13. Mr. Shadreck C. Mubanga (Golden Valley Agricultural Research Trust - GART)
14. Mr. Stanford Phiri (Katete College of Agricultural Marketing)
15. Mr. Joseph T. Mwale (Mulungushi University)
16. Mrs. Precious Hamusute (Veterinary Council of Zambia)
17. Ms. Eva N. Kaonga (University of Zambia - UNZA)
18. Ms. Sylvia H. N'gandu (University of Zambia - UNZA)
19. Mr. Fidelis Cheelo (Zambia Qualifications Authority)
20. Miss Womba Soneka (Zambia Qualifications Authority)
21. Mr. Modest Hamalabbi (Zambia Qualifications Authority)

FOREWORD

The Zambia Qualifications Authority (ZAQA) is a statutory body under the Ministry of Education established by ZAQA Act No. 13 of 2011 to ***“provide for the development and implementation of a national qualifications framework; provide measures to ensure that standards and registered qualifications are internationally comparable; and provide for matters connected with, or incidental to the foregoing”***.

Among other functions, ZAQA is responsible for ***“determining national standards for any occupation”***, through various sector specific National Occupational Standards Development Teams (NOSDTs) of experts composed of representation from appropriate authorities, government departments, industry, academia, regulators, consumer associations and non-governmental organisations, etc.

This National Occupational Standard (NOS) has been developed by the Agriculture National Occupational Standards Development Team in accordance with the procedures and guidelines of ZAQA. All users should ensure that they have the latest edition of this publication as National Occupational Standards are revised from time to time.

This NOS shall be used by among others, industry, employers, quality assurance bodies, awarding and professional bodies and education and training institutions, as a benchmark to identify training needs, develop job profiles/descriptions, develop curricula and learning programs, in various sectors where the occupation exists. In the Agriculture sector, demonstration of competence against this NOS may be required in order to run a business or practice a craft or profession.

JUSTIFICATION

Pond worker is the key grass root practitioner of any aquacultural set up. They implement the nutritional, predator control for the good health and wellbeing of aquatic organisms under culture. They are key liaison between the organism and the superior management.

ACRONYMS AND ABBREVIATIONS

ABW	Average Body Weight
CS	Core Skill
DO	Dissolved Oxygen
NOS	National Occupational Standard
NOSDT	National Occupational Standards Development Team
OK	Organisational Knowledge
PC	Performance Criteria
PS	Professional Skill
PW	Pond worker
RK	Regulatory Knowledge
RPL	Recognition of Prior Learning
TK	Technical Knowledge
ZAQA	Zambia Qualifications Authority
ZQF	Zambia Qualifications Framework

GLOSSARY OF TERMS

For the purposes of this NOS, the following terms and definitions shall apply:

Core Skills/Generic Skills: are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the NOS, these include communication related skills that are applicable to most job roles.

Function: is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of NOS.

Job Title: defines a unique set of functions that together form a unique employment opportunity in an organisation.

Knowledge and Understanding: are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

National Occupational Standards (NOS): are statements of the standards of performance individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding. They are precise descriptions of what an individual is expected to be able to do in his/her work role.

National Occupational Standards (NOS) Code: is a unique reference code that identifies a NOS.

National Occupational Standards Development Team (NOSDT): means an established group of national stakeholders/experts responsible for the development of National Occupational Standards within a specific economic sector or occupation.

Occupation: is a set of job roles, which perform similar/related set of functions in an industry.

Organisational Context: includes the way the organisation is structured and how it operates, including the extent of operative knowledge that managers have in their relevant areas of responsibility.

Performance Criteria: are statements that together specify the standard of performance required when carrying out a task.

Scope: is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.

Sector: is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.

Sub Sector: is derived from a further breakdown based on the characteristics and interests of its components.

Technical Knowledge: is the specific knowledge needed to accomplish specific designated responsibilities.

Unit Title: gives a clear overall statement about what the incumbent should be able to do.

1. OVERVIEW

NOS covers the relevant specific information on the occupational standards of a pond worker, it covers guidelines of a competent pond worker starting from the minimum entry age, qualification, through to assessment of the incumbent strong and weak points in the chain of role execution.

NOS Code	NOS.PW. 01
Occupation	Pond Worker
Job Title	Pond Worker
Job Description	The job of a pond worker involves preparing ponds for stocking, feeding the organisms under culture systems, checking growth, protection of organisms against predators, ensuring that the water quality is within the recommended range and eventually responsible for harvesting of the organism
Job Purpose	Pond worker conducts daily routine pond operations that ensure the organisms under culture feed at correct time and quantity and are protected from predators, while ensuring cleanliness of the pond and the surrounding areas.
ZQF Level	3
Sector	Agriculture
Sub sector	Aquaculture
Other Economic Sector(s) in which the Occupation is Practiced	N/A
Other Similar Jobs that can be performed by a pond attendant/worker	Fish cage attendants
Minimum Educational Job Entry Qualification(s)	Grade twelve certificate Level 3 Certificate
Practicing License Requirements (if any)	N/A
Training/RPL	
Minimum Job Entry Age	18 years
Prior Experience	Not applicable
Performance Criteria	As described in the Units under Section 4

2. SCOPE

This National Occupational Standard specifies the fundamental knowledge and understanding, skills and competences that a Pond Worker must possess to be successful in his/her job role. It is applicable to Pond Workers working in public or private organisations or self-employed.

3. PERSONAL ATTRIBUTES (VALUES, ETHICS AND ATTITUDES)

This job requires an individual to possess:

- Creativity
- Problem solving skills
- Interpersonal skills
- Attention to specified details
- Ability to communicate effectively and clearly
- Self-motivated and team worker
- Courage
- Physical fitness

4. UNITS AND ELEMENTS

This National Occupational Standard is divided into 3 units representing the tasks that a job holder should undertake in his/her day-to-day work. Each unit is further broken down into elements depicting the number of activities to be carried out for the successful execution of a particular task.

UNIT 1. [This unit is about assisting in carrying out the preparation of the culture unit and performing pre-stocking activities]

Unit No.	01
Unit Title	Assisting in preparation of the culture unit and performing pre-stocking activities
Description	This unit is about assisting in carrying out the preparation of the culture unit and performing pre- stocking activities under supervision.
Scope	This unit covers the following: - Assisting in preparing the culture unit for stocking seeds - Assisting in supplying water to the reservoir and holding facilities - Perform waste management
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Assisting in preparing the culture unit for stocking seeds	To be competent, the individual must be able to: PC1. Drain the culture unit and sun-dry it PC2. Remove the aquatic weeds and predatory/ weed fish using the recommended method PC3. Apply organic manure/ inorganic fertilizer in the pond/tank as per the instructions PC4. Apply the recommended treatment in the pond to control aquatic insects before stocking seeds PC5. Maintain the record of fertilizers and any treatments applied in the pond
Assisting in supplying water to the reservoir and holding facilities	To be competent, the individual must be able to: PC6. Draw water from the source up to the required level in the reservoir PC7. Assist in treating the water with the appropriate methods such as chlorination PC8. Pump the treated water into the culture pond from the reservoir
Perform waste management	To be competent, the individual must be able to: PC9. Segregate waste into appropriate categories and deposit it at identified locations PC10. Dispose the non-recyclable waste appropriately
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the company/ organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Company code of conduct OK2. Company environmental policies OK3. Company social cooperate responsibility
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1.The process of drawing water from the source to fill the reservoir

	TK2. Water treatment methods/ processes TK3. The process for pumping treated water into the culture pond from the reservoir after treatment TK4. Pre-stocking and pond preparation activities carried out in freshwater aquaculture system TK5. Fertilizers/manures for desired plankton growth TK6. Consequences of improper usage of chemicals TK7. Different methods of recycling and disposing of waste TK8. Common sources of pollution and ways to minimise it
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of : RK1. Legalised aquatic organisms for culture in the area. RK2. Local environmental authority regulations RK3. Basic company environmental policy
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions.
	Reading Skills
	The individual on the job must be able to: CS2. Read and comprehend written instruction. CS3. Read and understand manuals and company documents. CS4. Read hazard sign posts in the operation area.
	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS5. Express basic statements or and information clearly so that others can understand. CS6. Participate in and understand the main points of simple discussions. CS7. Respond appropriately to any queries.
B. Professional Skills	Decision Making
	The individual on the job must be able to: PS1. Follow organisation rule-based decision-making process.
	Plan and Organise
	The individual on the job must be able to: PS2. Plan and organise work to meet deadlines. PS3. Work constructively and collaboratively with others.
	Customer Centricity
	The individual on the job must be able to: PS4. Observe code of conduct. PS5. Manage relationships with customer for business purpose.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS6. Recognize problems and report to authority. PS7. Adopt best methods of completing assigned tasks. PS8. Judiciously use common sense in day to day activities

	Analytical Thinking
	The individual on the job must be able to: N/A
	Critical Thinking
	The individual on the job must be able to: PS9. Critically evaluate information obtained from customers, supervisors, and co-workers to perform day-to-day activities. PS10. Ask relevant questions for better understanding.

UNIT 2 [This unit is about organism growth management and post stocking culture operations along with harvesting and post-harvest management of organism.

Unit No.	02
Unit Title	Organism growth management and water quality measure
Description	This unit is about managing the growth of the organism in the pond and monitoring the water quality while ensuring cleanliness of the pond and the surrounding areas.
Scope	This unit covers the following: - Assisting in pond water quality parameter measurement - Feeding the organism in the pond by hand or by automatic feeding systems. - Data generation and elementary record keeping - Assisting in harvesting and post-harvest management of fish - Optimising resource utilisation
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Assisting in pond water quality parameter measurement	To be competent, the individual must be able to: PC1. Read water quality parameters such pH and dissolved oxygen (DO) using the parameter machine PC2. Read temperature using the aquatic thermometer PC3. Read turbidity using the parameter machine
Feeding the organism in the pond by hand or by automatic feeding systems.	To be competent, the individual must be able to: PC4. Weigh feed quantities and calculate feeding frequency PC5. Identify feed type and category and preservation PC6. Operate automatic feeding system PC7. Recognise organism feeding behaviour
Data generation and elementary record keeping	To be competent, the individual must be able to: PC 8. Take record of the day-to-day activities including feed quantity per time PC 9. Take record of all organism growth measure PC10 Record water parameters on a daily basis as indicated by the parameter machine

Assisting in harvesting and post-harvest management of fish	To be competent, the individual must be able to: PC11. Use nets of appropriate mesh size to harvest the fish PC12. Harvest fish of the size as advised by the aquaculture technician, in case of partial harvesting PC13. Carry out minimum handling of the fish between harvesting and transportation PC14. Store the harvested fish at the recommended temperature and Relative Humidity (RH) PC15. Pack the harvested fish in an appropriate container for transportation
Optimising resource utilisation	To be competent, the individual must be able to: PC16. Optimise the usage of water, electricity and relevant materials in various tasks and processes PC17. Plug any water leakages to prevent its wastage
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the company/ organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Company code of conduct OK2. Company environmental policies OK3. Company social corporate responsibility
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. Organism growth rates TK2. Pond water quality assessment and be able to make adjustments TK3. Water parameter machine to determine water quality TK4. Detection of abnormal behavioral patterns, lesions, and parasites in the fish TK5. The process of partial harvesting TK6. Guidelines for handling fish between harvest and transportation TK7. The appropriate method of packing the harvested organisms TK8. Different feed types and routines for feeding different species TK9. Practices for harvesting and post-harvest care of the organism produced TK10. The process of applying lime, manure and fertilizers TK11. The use of aerator pumps to maintain the required level of dissolved oxygen in the pond water TK12. Benefits of resource optimization TK13. Ways of efficiently managing various materials TK14. Common practices of conserving electricity

C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of : RK1 Legalised aquatic organisms for culture in the area. RK2 Local environmental authority regulations RK3 Basic company environmental policy
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions.
	Reading Skills
	The individual on the job must be able to: CS2. Read and comprehend written instruction. CS3. Read and understand manuals and company documents. CS4. Read hazard signposts in the operation area.
	Oral Communication (Listening and Speaking skills)
	The individual on the job must be able to : CS5. Express basic statements or and information clearly so that others can understand. CS6. Participate in and understand the main points of simple discussions. CS7. Respond appropriately to any queries.
B. Professional Skills	Decision Making
	The individual on the job must be able to: PS1. Follow organisation rule-based decision-making process.
	Plan and Organise
	The individual on the job must be able to: PS2. Plan and organise work to meet deadlines. PS3. Work constructively and collaboratively with others.
	Customer Centricity
	The individual on the job must be able to: PS4. Observe code of conduct. PS5. Manage relationships with customer for business purpose.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS6 Recognize problems and report to authority. PS7. Adopt best methods to complete assigned tasks. PS8. Judiciously use common sense in day to day activities
	Analytical Thinking
	The individual on the job must be able to: N/A
	Critical Thinking
	The individual on the job must be able to: PS9. Critically evaluate information obtained from customers, supervisor and co-workers to perform day to day activities. PS10. Ask relevant questions for better understanding.

UNIT 3 [This unit is about Safety, health and environmental management].

Unit No.	03
Unit Title	Safety, health and environmental management
Description	This unit is about maintaining safety, health, and environmental protection for the individual and the plant
Scope	This unit covers the following: • Health & safety regulations • Environmental protection.
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria (PC)
Health & safety regulations	To be competent, the individual must be able to: PC1. Read, interpret and implement national and organisational safety and health policies and regulations. PC 2. Assess risks and possible safety hazards of all aspects of operations
Environmental protection.	To be competent, the individual must be able to: PC3.Read, interpret and implement the environmental policies for the organisation PC4.Read, interpret and implement environmental standard operating procedures and policies of the organisation PC5. Read, interpret and implement national and global environmental regulations.
Knowledge and Understanding (K)	
A. Organisational Context (Knowledge of the company/ organisation and its processes)	The individual on the job must demonstrate knowledge and understanding of: OK1. Company Quality, health, and safety policies OK2. Company environmental policies OK3. Company regulations and global best practices
B. Technical Knowledge	The individual on the job must demonstrate knowledge and understanding of: TK1. Safety and health risk assessment TK2. Environmental Risk assessment TK3.Toolbox talk
C. Regulatory context (Knowledge of Rules and Regulations)	The individual on the job must demonstrate knowledge and understanding of : RK1. Regulatory requirements for health & safety
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	The individual on the job must be able to: CS1. Write in English and give simple concise instructions.
	Reading Skills

	The individual on the job must be able to: CS2. Read and comprehend written instruction. CS3. Read and understand manuals and company documents. CS4. Read hazard signposts in the operation area.
	Oral Communication (Listening and Speaking skills)
B. Professional Skills	The individual on the job must be able to : CS5. Express basic statements or and information clearly so that others can understand. CS6. Participate in and understand the main points of simple discussions. CS7. Respond appropriately to any queries.
	Decision Making
	The individual on the job must be able to: PS1. Follow organisation rule-based decision-making process.
	Plan and Organise
	The individual on the job must be able to: PS2. Plan and organise work to meet deadlines. PS3. Work constructively and collaboratively with others.
	Customer Centricity
	The individual on the job must be able to: PS4. Observe code of conduct. PS5. Manage relationships with customer for business purpose.
	Problem Solving and Decision Making
	The individual on the job must be able to: PS6 Recognize problems and report to authority. PS7. Adopt best methods to complete assigned tasks. PS8. Judiciously use common sense in day to day activities

5. EQUIPMENT, TOOLS AND CONSUMABLE MATERIALS

These include, but not limited to weighing scales, feed, feeding baskets or buckets, warding suits, fishing nets (cast nets, seine nets, scoop nets, hapa nets and predator nets) water buckets, slashers, sickles, hoes, shovels, mattock, automatic feeding machines, metre rule/ tape measure, water parameter indicator, spirit level, dumpy level and stuff and Personal Protective Equipment (PPE).

6. DILEMMAS/CHALLENGES AND COMPLEXITIES FOR A JOB HOLDER

Dilemmas associated with the job of a Pond Worker include long working hours, exposure to chemical and biological hazards, time pressure to complete tasks, working in extreme weather such as hot and cold conditions, wet and dusty environments, etc.

6.1 Alternative Choices (Solutions) to Dilemmas and Complexities

Solutions to dilemmas include carrying out risk assessment and implementing appropriate control measures, ensuring good time management and planning, participating in workplace safety sensitization and awareness, supporting capacity building through training, managing work stress, adhering to company's safety and standard operating procedures at all times, paying attention to detail, consulting extensively within and outside one's department/team on safety and other issues.

7. WORKING CONDITIONS/ENVIRONMENT

Working conditions include working in cold, wet and muddy conditions, working for long hours, working in shifts, areas that may be noisy and dusty.

8. PARTIES INVOLVED/INTERACTING WITH THE JOB HOLDER OR TRAINEE

8.1 Internal/Within the Organisation

Parties involved/interacting with the job holder who are internal to the organisation include employers, supervisors and other employees.

8.2 External/Outside the Organisation

Parties involved/interacting with the job holder who are external include customers/clients, government regulators, trainers, suppliers of equipment/tools/consumables, occupational health and safety associations, Academia etc.

9. PHYSICAL DEMANDS ON THE BODY

- Physique to sustain strenuous conditions;
- Be able to walk and stand for long periods of time;
- Be able to lift relatively heavy materials, tools and equipment;
- Be able to use fingers, hands and feet flexibly
- Be able to get exposed to treated and conditioned water without any allergies.
- Be able to handle aquatic organisms without fear.
- Be able to at least swim

ANNEX A

Criteria for Assessments based on this NOS

A.1 Guidelines for Assessment

A.1.1 Criteria for assessment for curricula and learning programs based on these NOS will be created by curricula and programs developers. Each Performance Criteria (PC) will be assigned marks proportional to its importance in the NOS. Curricula and programs developers will also lay down proportion of marks for theory and practical skills for each performance criteria, giving more weight to practical skills.

There shall be allocated the 'Total Mark', which will be the sum of all marks in each Unit, distributed across the number of PCs in that particular Unit. The 'out of' mark will be the mark allocated to each PC, which will be shared between theory and skills practical assessments.

A.1.2 Awarding/assessment bodies or institutions and other users of the NOS will create unique question papers for the theory part and evaluations for skill practical part for their respective candidates.

ANNEX B

NOS Version Control

This Annex gives details necessary for the tracking of the NOS versions based on the number of revisions.
